.5 ITA Deductions for Restitution. Refer to ITA Manual for the procedure.

a. Wages/Earnings

- 1) If the inmate is convicted before July 1, 2012, deduction for restitution from gross wages is 10%. The ITA is programmed to automatically take out 10 per cent of the gross wages/ earnings when posted.
- 2) If the inmate is convicted from July 1, 2012 and later, the ITA automatically takes out 10% of the gross wages/earnings when posted. Hence, if the court ordered more than 10%, the additional collection is to be taken out from the gross wages manually. Refer to .5 c.

**** Additional deductions to be done manually until such time when the majority of orders are dated after July 1, 2012 at which time the ITA automatic deduction will be changed to 25% and manual deductions are to be changed for the inmates owing 10%.**

b. Cash Deposits/Receipts

Convictions from July 1, 2012, and later, include collection of restitution equal to 25% of gross deposits. The ITA System has a built in program that automatically takes out 25% of the cash deposits when the Restitution box is checked off and the cash receipt is posted.

c. Adjustments for recoveries of restitution

- 1) For additional recoveries from the Earnings and Wages, withdraw the funds from the inmate's account in the ITA with the following guidelines:
 - a) If the Total Gross Earnings is \$27.00 or over, half or 50% of the additional recovery is taken out of the spendable and the other half or 50% is taken out of the restricted.
 - i) Illustration: The court ordered payments of 25% of earnings which is \$6.75 (25% of \$27.00).
 - ii) ITA automatically takes out 10% or \$2.70 of the Total Gross Earnings.
